Subject: EUROTOX EUROPEAN REGISTERED TOXICOLOGIST (ERT) CONSULTATION

Dear Colleagues,

We are the executive committee of EUROTOX, elected by our members to lead the society. As part of our responsibility to be the leading voice of toxicology in Europe, we oversee a registration scheme, the ERT, which registers individual toxicologists who excel by high standards of education, skills, experience and professional standing. The system depends upon and is driving towards a high degree of harmonization of standards among the registering national boards across Europe.

As one of the main regulatory bodies in Europe, we believe you are key stakeholders in the drive to improve and harmonise standards of training for practising toxicologists across Europe. As part of our consultation window, we would appreciate any comments you may have on the attached draft ERT Rules of Registration. This document outlines a curriculum of learning and continued professional development as well as providing context for the ERT.

Comments can be sent **by May 27th** to any of the following EUROTOX members:
